

# Swiss Pelvic & Acetabular Course

Virtual reality &  
interactive practicals

Zurich  
January 17 – 18, 2025

[swiss-pelvic-and-acetabular-course.com](https://swiss-pelvic-and-acetabular-course.com)

**USZ** Universitäts  
Spital Zürich

Scientific Chair:

**Prof. Dr. med.  
Hans-Christoph Pape**

Co-Chairmen:

**Prof. Dr. Roman Pfeifer  
Prof. Dr. Johannes Bastian  
Prof. Dr. Marius Keel  
Dr. Andreas Höch**

Fractures of the pelvic ring and the Acetabulum continue to represent a challenge in both patients with acute severe trauma and increasingly in the elderly despite low energy injuries.

The course is designed to cover both entities and a number of renowned experts will cover these topics.

The second course day is dedicated to various practical activities, including a full workshop in cadavers and virtual reality practicals.

## MAIN TOPICS

### High energy injuries

- Acetabulum: from standard approaches to minimal invasive surgery techniques
- Pelvic ring: from life saving procedures to reconstruction

### Low energy injuries / Geriatric fractures

- Acetabulum: new anatomically oriented strategies
- Pelvic ring: indications and techniques for fracture adapted surgery

## VENUES

### Theory, January 17, 2025:

UniversitätsSpital Zürich, Hörsaal OST  
Schmelzbergstrasse 12  
CH-8091 Zürich

### Cadaver Workshop, January 18, 2025:

J&J Institute  
DePuy Synthes –  
Johnson & Johnson  
Luzernstrasse 21  
CH-4528 Zuchwil (Solothurn)

**Johnson & Johnson  
MedTech**

## INITIATOR

**USZ** Universitäts  
Spital Zürich
